

# Family Newsletter

October 2017

## Important Dates

**October 6:** Socialization, 10:00 - 12:00; Moxham Lutheran Church

**October 20:** Socialization, 10:00 - 12:00; Policy Council Meeting  
12:00; Moxham Lutheran Church

## Tips on Pacifier Safety:

- **Wait until breastfeeding is going well (usually after about 3 to 4 weeks).** If a pacifier is given to a baby before then, it can make establishing breastfeeding harder. After a pacifier is introduced, it should never be used to delay or replace regular feedings.
  - **Let a baby decide whether to use a pacifier.** If a baby shows no interest in using a pacifier, do not force it. The baby may not need a pacifier.
  - **Before using a pacifier to help soothe a baby, try other things.** When a baby is upset or uncomfortable, try holding, rocking, snuggling, or singing to calm the baby. A pacifier can be tried if these ideas don't work.
  - **Offer a pacifier at naptime and bedtime.** If a baby uses a pacifier, the best time to offer it is at naptime and bedtime. Using a pacifier at these times reduces a baby's risk of Sudden Infant Death Syndrome.
  - **Buy pacifiers; do not make them.** Taping a nipple to a plastic bottle top or using an empty bottle with a nipple is not safe. Homemade pacifiers can come apart. A loose nipple can get caught in a baby's throat and make the baby choke.
  - **Use pacifiers that are not coated.** Do not coat a pacifier with anything, especially sugar, honey, or jam. Doing this puts a baby at high risk for tooth decay.
  - **Use clips with short ribbons attached to them to keep pacifiers from falling.** Never tie a pacifier to a baby's wrist or neck or to a baby's crib. The string can get tangled around the baby's neck and make the baby choke.
  - **Clean pacifiers and replace them regularly.** Use soap and warm water before giving a pacifier that has fallen on the ground or floor back to a baby. Parents who clean pacifiers with their mouths pass bacteria that cause tooth decay to the baby. This puts the baby at high risk for tooth decay. Carrying extra pacifiers is a good idea.
- Avoid pacifier sharing.** Just like toothbrushes, each baby should have his or her own pacifier(s). Letting babies share a pacifier can pass bacteria and viruses that cause sickness and increase a baby's risk for tooth decay.

## Happy Birthday

### October Birthdays

Blessing L. 10/1

Zavion C. 10/3

Angelo S. 10/4

Gabriella S. 10/17

Angeleah S. 10/20

Ian C. 10/21

Makenzie L. 10/26

Amira W. 10/26

Jill S.(staff) 10/26

## October Family Event:

### Fall Celebration

Friday, October 20th  
10:00—12:00

Moxham Lutheran  
Church

Wear your  
favorite costume.

We will have a parade,  
pictures, and snacks.

## Make an Autumn Leaf Collage

Take your child on a walk and collect colorful leaves. While walking, you can talk about the weather, change of seasons, the colors of the leaves, and animal preparing for winter. Back home, place the leaves you collected between a few sheets of newspaper under a heavy book to flatten them. Let them dry for a few days. Next, help your child arrange the leaves on paper and glue them in place. You can add more decorations you like with crayons, markers, glitter, etc.

PFCS Early Head Start  
929 Menoher Blvd.  
Johnstown, PA 15905

Keep an eye out  
for an invite to our  
Harvest Feast on November 3!

## Frozen Yogurt-Covered Blueberries

Here is a delicious healthy snack that you can make with your children.

### Ingredients

One 8 oz. package of fresh or frozen blueberries

One 6 oz. container of yogurt

### Directions

1. Line a cookie sheet with waxed paper.
2. Push a toothpick in a blueberry and dip the blueberry into yogurt until it is covered.
3. Put the yogurt-covered blueberry onto the waxed-paper-covered cookie sheet. Repeat this step until the cookie sheet is full.

Put the blueberry-filled cookie sheet in the freezer for 1 hour or until the blueberries are completely frozen.

## Paper Plate Apple/Pumpkin Collage

Materials Needed: paper plate, glue, construction paper (red for an apple or orange for a pumpkin)

Directions: Have your child tear construction paper into small pieces. Next, have your child apply glue to the paper plate – can use liquid glue or glue stick – then have your child place the torn pieces of paper on top of the glue – add green paper stem on top!!

Thanks to: Laurence and Legend Jackson

## Apples of our Eyes
